

# H7-BM1

The H7-BM1 pulse counter allows the reading of the pulse signals generated by up to four water meters. It is possible to set the pulse value for each input signal independently.

## TECHNICAL FEATURES

Pulse signals sources	Up to 4
Maximum reading value	99999.999m <sup>3</sup>
Settable pulse values	1, 2, 5, 10, 25, 100, 1,000 dm <sup>3</sup> /pulse
Wall mounting	Using 2 screws Ø6
Power supply	Lithium battery (8 year lifetime)
External dimensions	89 x 73 x 42 mm
IP Protection	IP54

# DESIGNING, PRODUCING AND DISTRIBUTING SOLUTIONS FOR OVER 25 YEARS

B METERS is an Italian company that has been designing, producing and distributing instruments and solutions for measuring the consumption of water and thermal energy used for heating and cooling, for over 25 years.

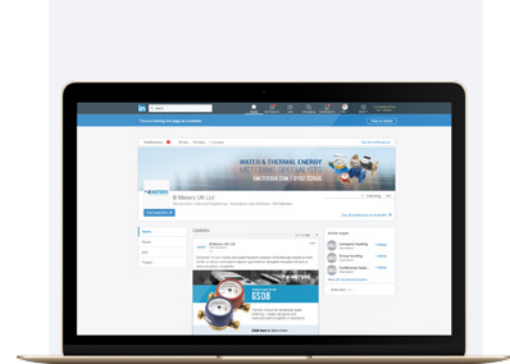

The yearly production currently exceeds 2M units, putting B METERS in a leading position both at national and European level.

The product range includes turbine (velocity) type single and multi-jet water meters with mechanical or magnetic transmission, Woltmann meters, irrigation meters, flow meters, thermal energy meters and heat cost allocators with direct reading, or complete with integrated modules for the remote transmission of the consumption data.
