

H7CX-AWD1

The H7CX series offers multiple timing ranges for precise timing control, as well as twin-timing and memory function.

These and other added value features ensure that the H7CX covers almost every possible user requirement in timers.

TECHNICAL FEATURES

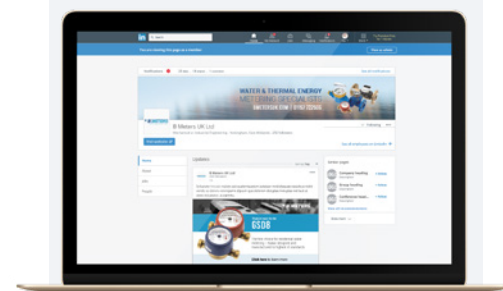

1 stage counter	Easy "one" set-point control
1 stage + total counter	Save separate total counter
2 stage counter	For more advance applications
1 stage + batch counter	Save separate batch counter
Dual counter	To "add" or "subtract" input pulses
Tachometer	To control speed applications
Power supply	External

DESIGNING, PRODUCING AND DISTRIBUTING SOLUTIONS FOR OVER 25 YEARS

B METERS is an Italian company that has been designing, producing and distributing instruments and solutions for measuring the consumption of water and thermal energy used for heating and cooling, for over 25 years.

The yearly production currently exceeds 1,800,000 units, putting B METERS in a leading position both at national and European level.

The product range includes turbine (velocity) type single and multi-jet water meters with mechanical or magnetic transmission, Woltmann meters, irrigation meters, flow meters, thermal energy meters and heat cost allocators with direct reading, or complete with integrated modules for the remote transmission of the consumption data.
